

HISAMUDDIN CHANDIWALA

Senior Front-End Developer

📞 +91-9819871432 ✉ hisamc2000@gmail.com [in LinkedIn](#) [G Github](#)

Summary

Results-driven Senior Front-End Developer with 3+ years of experience building high-performance, scalable, and responsive web applications using React.js, JavaScript (ES6+), and Redux. Proven expertise in developing reusable components, optimizing application performance, and delivering pixel-perfect UI/UX across Agile/Scrum environments

Skills

Core Languages : JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries : React.js, Redux, Redux Toolkit, Tailwind CSS, REST APIs

Tools : Git, GitHub, Antigravity IDE, Cursor

Testing : Jest, React Testing Library

AI Integration : OpenAI API (GPT-4, Chat Completions API, Prompt Engineering)

Backend & Database : Firebase (Firebase Auth, Firebase Hosting, Realtime Database)

Experience

Senior Front-End Developer

November 2024 – Present

eClerx (Hybrid)

Technologies Used: ReactJs, Redux, Tailwind CSS

- Recognized with the “**Super Achiever**”, “**Value Award**” and “**iQube Idea Certifications**” for spearheading **AI-assisted development workflows** and introducing **automated testing practices** across teams.

Front-End Developer

May 2023 – November 2024

eClerx (Hybrid)

Technologies Used: ReactJs, Redux, Tailwind CSS

- Developed and maintained **15+ reusable React.js components** using functional components and custom hooks (useState, useEffect), reducing UI development time by **35%** across multiple product teams.
- Optimized application performance using **Memoization (React.memo, useMemo)**, **code splitting**, and **lazy loading**, reducing initial page load time from **2.2s to 1.4s**.
- Introduced and implemented **Jest and React Testing Library** in collaboration with QA teams, reducing manual testing effort by **70%** and production bugs by **45%**.
- Leveraged **AI-assisted development tools (Antigravity IDE)** to automate repetitive banner content generation and streamline UI/UX component testing, reducing development time by **75%** and improving content review accuracy.

Projects

CineVia | GitHub | Live

React.js, Firebase, Redux Toolkit, Tailwind CSS, OpenAI API, TMDB API

- Implemented **Firebase Authentication** for secure user sign-up and login. Built robust **client-side form validation** using **Regex patterns** for real-time input feedback on authentication forms, reducing invalid submissions
- Integrated **TMDB REST API** for real-time fetching of movies, trending content, and genre-based browsing, enabling a fully dynamic and data-driven user interface
- Engineered an **AI-driven movie recommendation engine** using **OpenAI API**, allowing users to receive personalized movie suggestions based on natural language prompts

Snippet Vault | GitHub | Live

React.js, Redux Toolkit, Tailwind CSS, Local Storage

- Developed a **developer productivity tool** for saving, organizing, and managing reusable code snippets, implementing full **CRUD operations** with **Redux Toolkit** for scalable state management
- Leveraged **Browser's navigator.clipboard API** to enable one-click snippet copying, enhancing user workflow efficiency
- Persisted snippet data using **Local Storage**, ensuring data retention across sessions without backend dependency

Education

Bachelors in Computer Engineering

Graduated: May 2022

Bharat College, Mumbai University

CGPA: 8.1
